PREFACE

LUXURIES of the past become necessities of the present. To-day, a dictionary is a household, a directory, a business necessity. The household calls for a dictionary that is exact and modern, the office asks for a directory that is up-to-date and reliable. Wise arrangements and mechanical execution, in either case, giving clearness of type and ease in reference, adds to the value of the book.

A student who does not own a dictionary and depends upon his neighbor loses many a correct spelling, pronunciation, and meaning of words, because he does not at the moment, have at hand the means of investigation. So the business man who does not own a directory often loses time and money for want of immediate information as to directory facts.

In this the 51st issue of our CAMBRIDGE DIRECTORY we have aimed to give our patrons the best that modern enterprise and skill can produce consistent with the idea that it is a necessity to every business man and so must be within the reach of all. Our canvass has been more thorough than ever before, and the directory more exact.

We have added without additional expense, as an experiment, for the approval of the public, a partial directory by streets. Its continuance in the future and its enlargement will depend upon the wishes of the users of the book and their willingness to pay for the consequent additional expense.

We call attention to the advertisements in the directory. They deserve attention, representing the push and pluck of business men, who have both the ambition and the means to serve the public acceptably.

This book contains approximately 37,000 names. We send it forth as we have its predecessors, in the full confidence that it will meet with the approval and welcome of the public.

Two Blows, all-out signal.

Twelve Blows, repeated once, Military Call.

5-5—No school signal, given at 8.15 a. m., 12.45 or 1.15 p. m.

INSTRUCTIONS TO KEY HOLDERS.

Alarms to be given from the box nearest the location of the fire.

Do not give an alarm for a fire seen at a distance, unless assistance is called for.

To give an alarm, open the door, pull the hook to the bottom of the slot once, and let go. Each box contains a small bell which, if heard before you pull, indicates that an alarm has been previously given, and by listening at the box, you will learn the number of the box from which the alarm was given, but in no case will you pull the hook while the alarm is striking. After giving the alarm, remain at the box, so as to direct the firemen to the fire. Be sure that you lock the box before leaving it.

Citizens are requested to inform themselves where keys to the signal boxes are kept, signs suitably inscribed being placed over each box giving the requisite information.

First alarm will be given by striking two or more rounds of box number.

Second alarm will be given by repeating the first alarm.

Third alarm will be given by striking three blows twice on gongs, bells and whistles.

General alarm will be given by striking three blows three times on gongs, bells and whistles.
